The image shows the front page of the JUKI In the News September 2018 Newsletter. At the top, the JUKI logo is displayed in blue, followed by the text "In the News" in a large, brown serif font. Below this, a blue banner contains the text "SEPTEMBER 2018 NEWSLETTER". The main visual features a white and blue Haruka TL-18QVP mid-arm quilting and piecing machine. A quilt with a pink and white pattern is positioned in front of the machine, partially unrolled. The background of the page has faint, light blue dashed lines suggesting a blueprint or technical drawing.

NEW! HARUKA TL-18QVP
Mid-Arm, High-Performance Quilting and Piecing Machine

Haruka TL-18QVP is a single needle, lock-stitch, portable sewing machine, constructed of aluminum die-casting to ensure industrial-quality sewing. As a reflection of JUKI's Japanese heritage, the TL-18QVP was named Haruka meaning

"beyond." Go beyond with Haruka!

New Features

Float Function (Micro-Lifter)

Now equipped with the same mechanism as JUKI industrial sewing machines for preventing uneven sewing on quilts and velvet, as well as stretched stitches on knit fabrics. The presser foot floats 0 to 2mm above the material making it useful for sewing over thick seams.

Attachment Mounting Plate

A separate attachment mounting plate for installing fabric guides and other attachments.

LED Sewing Light Brightness Adjustment Switch

A switch in the needle area allows you to adjust the brightness of the light between high, medium, low, and off.

Other Features

- Automatic needle threader
- Automatic thread trimmer
- Speed control adjustment lever
- Drop feed lever for free motion sewing
- Dual tension adjustment for best stitch quality
